Alex Burgos

Profile:

Front End Engineer for 10+ years. Looking for collaborative environments that value knowledge sharing, culture, trust, and accessibility.

Skillset:

React, Redux, Next, React Query, Typescript, Jest, Cypress, CSS, Node/Express, Playwright, Styled Components, Tailwind, Svelte, Cloudflare

Experience:

Kiwi.com — Senior Software Engineer — Barcelona — 2022 - Present
- Built user-friendly and accessible web features for our popular travel app that runs on the web and mobile through web views.
- Led a FE tech stack migration to modern Next.JS/React + Tan Stack Query while meeting key company initiatives with mission aligned teams.

Smartly Oy — Senior Software Engineer — Helsinki — 2020 - 2022
- Developed features with React/Redux that were crucial to meet our team and company initiatives.
- Mentored junior developers through knowledge sharing of our shared services and architecture.
- Contributed to design system components, optimized the performance and tests of our app.

Schibsted Media - Software Engineer — Stockholm — 2020
- Improved an important Swedish news website by implementing redesigns and bug fixes that were meant to increase user engagement and make Aftonbladet more reliable.
- Worked with React, custom in-house CMS solutions and a BE for FE Node client.

Food52 - Software Engineer — New York — 2017 - 2019
- Developed features that contributed to a growing user base, improved our in-house CMS and e-commerce tools built on React and Rails. Refactored code from and older stack - Knockout.js - to React/Redux.
- Built a new cart and checkout experience that was optimized for mobile users and implemented third party payment tools.

Wyng - Front End Developer — New York — 2015 - 2017
- Built micro-sites, email templates, and custom landing pages that hosted user generated content.

Time, Inc - Front End Developer — New York — 2014 - 2015 (short term contract)

- Built templates and features for time.com on a Marionette/Backbone.js/Wordpress stack.

Binghamton University (New York) — Bachelors of Science in Computer Engineering — 2013
